

Lamb with Rice

ADULT DOG

SINGLE ANIMAL PROTEIN

Why Lamb?

Gently cooked to protect the protein and create a fuller flavour, lamb is a nutrient-dense, digestible protein source. It is also a good source of vitamin B12 and iron which are required to help keep nerve and blood cells healthy.

Your Recipe Includes:

Total Lamb

A responsibly sourced and highly digestible protein source.

Freshly Prepared Lamb

Rich in amino acids, vitamins & minerals, lamb is a delicious source of protein.

Goodness Grains

The Goodness Grains range offers a selection of recipes that benefit from the finest freshly prepared protein sources and wholesome grains.

Why Grains?

Grains are naturally high in fibre, helping your pet feel full and satisfied. Wholesome grains provide nutritious and digestible nutrients such as essential fatty acids, vitamins and minerals - important for a complete and balanced diet and to help support a healthy immune system.

Recipe Claims

Limited Ingredient Diet

Formulated with a single source of animal protein to help support pets with sensitive digestion.

Hypoallergenic

Formulated without wheat, wheat gluten, dairy, egg and soya.

Sensitive Digestion

Freshly ground rice and barley gentle on a dog's digestive tract.

Healthy Gut

Chicory extract may help to maintain healthy gut bacteria and aid digestion.

COMPOSITION:

Lamb 34% (Including Dried Lamb 25%, Freshly Prepared Lamb 4%, Lamb Fat 3% & Lamb Gravy 2%), Brown Rice (23%), Barley (16%), White Rice (15%), Linseed, Beet Pulp, Alfalfa, Minerals, Seaweed, Omega 3 Supplement, Fructooligosaccharides (FOS, 970 mg/kg), Chicory Extract (0.05%), Yucca Extract (190 mg/kg), Dandelion

Rice

Healthy blend of brown and white rice, a rich source of fibre to help support optimum digestive health.

Barley

An ancient grain that is a great source of soluble fibre, which helps to keep the intestinal tract moving smoothly.

ANALYTICAL CONSTITUENTS:

Crude Protein	21%	NFE	49%
Crude Fat	10%	Omega 6 Fatty Acids	1.2%
Crude Fibre	3%	Omega 3 Fatty Acids	0.8%
Crude Ash	9%	Calcium	2.0%
Moisture	8%	Phosphorus	1.2%
Metabolisable Energy	348 kcal/100g		

NUTRITIONAL ADDITIVES PER KG:

VITAMINS: Vitamin A 14423 IU, Vitamin D3 2000 IU, Vitamin E 149mg

TRACE ELEMENTS: Zinc (Zinc Sulphate Monohydrate) 48mg, Iron (Iron (II) Sulphate Monohydrate) 48mg, Manganese (Manganous Sulphate Monohydrate) 34mg, Iodine (Calcium Iodate Anhydrous) 0.96mg, Selenium (Sodium Selenite) 0.29mg

FEEDING GUIDE*

WEIGHT OF DOG (KG)	1 - 5kg	5 - 10kg	10 - 20kg	20 - 30kg	30 - 40kg	40+kg
GRAMS PER DAY (G)	30 - 90g	90 - 160g	160 - 250g	250 - 340g	340 - 420g	420+g

* All dogs are different and the guidelines should be adapted to take into account breed, age, temperament and activity level of the individual dog. When changing foods please introduce gradually over a period of two weeks. Always ensure fresh, clean water is available.

- Please refer to the Partner Portal for more details or contact your Account Manager.
- 18 month shelf life.

KIBBLE SIZE:

- Optimal kibble size and shape for adult dogs.
- A crunchy kibble texture.

Important: The information provided in this document is GA Pet Food Partners Ltd interpretation of Regulation No 767/2009 including amending Regulations 2017/2279 and 2018/1903. As with all legislation only courts can decide on the correct interpretation of the law. We would advise that you always seek legal advice when creating/printing new packaging, leaflets or websites. The statutory Analytical Constituents declaration parameters (i.e. Crude Protein, Crude Fat, Crude Fibre, Crude Ash) may be used for declaration purposes along with Moisture. Other parameters are intended as a guide and in order to declare extra figures we suggest that analysis work is carried out to confirm levels more precisely. Formulation updates: As information becomes available and in order to continually meet statutory analytical constituent declarations, formulations may have to be adapted to account for raw material variation and availability. There may also be other reasons outside of our immediate control (including but not limited to force majeure events) which warrant the change of a formulation to improve its suitability.
