

Turkey with Rice

ADULT DOG

SINGLE ANIMAL PROTEIN

Why Turkey?

Gently cooked to protect the protein and create a fuller flavour, turkey is a lean protein source rich in essential amino acids. It is also a good source of essential nutrients such as riboflavin, potassium and selenium which contribute to overall health and well-being.

Your Recipe Includes:

30%

4%

Total Turkey

A responsibly sourced and highly digestible protein source.

Freshly Prepared Turkey

Rich in amino acids, vitamins & minerals, turkey is a delicious source of protein.

Goodness Grains

The Goodness Grains range offers a selection of recipes that benefit from the finest freshly prepared protein sources and wholesome grains.

Why Grains?

Grains are naturally high in fibre, helping your pet feel full and satisfied. Wholesome grains provide nutritious and digestible nutrients such as essential fatty acids, vitamins and minerals - important for a complete and balanced diet and to help support a healthy immune system.

Recipe Claims

Limited Ingredient Diet

Formulated with a single source of animal protein to help support pets with sensitive digestion.

Hypoallergenic

Formulated without wheat, wheat gluten, dairy, egg and soya.

Sensitive Digestion

Freshly ground rice and oats gentle on a dog's digestive tract.

Healthy Gut

Chicory extract may help to maintain healthy gut bacteria and aid digestion.

- 18 month shelf life.

KIBBLE SIZE:

- Optimal kibble size and shape for adult dogs.
- A crunchy kibble texture.

Important: The information provided in this document is GA Pet Food Partners Ltd interpretation of Regulation No 767/2009 including amending Regulations 2017/2279 and 2018/1903. As with all legislation only courts can decide on the correct interpretation of the law. We would advise that you always seek legal advice when creating/printing new packaging, leaflets or websites. The statutory Analytical Constituents declaration parameters (i.e. Crude Protein, Crude Fat, Crude Fibre, Crude Ash) may be used for declaration purposes along with Moisture. Other parameters are intended as a guide and in order to declare extra figures we suggest that analysis work is carried out to confirm levels more precisely. Formulation updates: As information becomes available and in order to continually meet statutory analytical constituent declarations, formulations may have to be adapted to account for raw material variation and availability. There may also be other reasons outside of our immediate control (including but not limited to force majeure events) which warrant the change of a formulation to improve its suitability.
