Adult Working Dog with Beef & Chicken

A complete food suitable for adult working dogs.

It is important you feed the same amount of food each day to your pet. Weigh out the correct amount of food on digital scales.

When feeding for the first time introduce gradually over 4-7 days.

- We recommend dividing their total daily amount of food into a minimum of two meals per day.
- Do not be tempted to overfeed. Daily amounts may need to be adjusted to meet the needs of your pet according to their activity, life stage and current weight.
- Beware that additional supplements, treats and chews can contain food allergens, unbalance the diet or lead to obesity.
- Please ensure that fresh drinking water is available at all times.

Weight	Daily Feed
Less than 5kg	30-102g
5kg - 10kg	102-171g
10kg - 15kg	171-232g
15kg - 20kg	232-287g
20kg - 25kg	287-340g
25kg - 35kg	340-437g
35kg - 45kg	437-528g
45kg - 55kg	528-613g
55kg - 70kg+	613-735g

These are guidelines only and intended for dogs with a moderate level of daily exercise. For a personalised feeding guide, please visit our website.
