

OSCAR

much more than pet food®

Large Breed Puppy Chicken & Rice

Suitable for puppies who will weigh over 25kg

Key Benefits

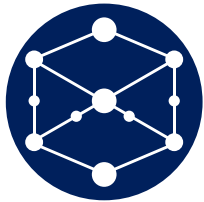

Hypoallergenic

Made with a single animal protein and gluten free ingredients, suitable for pets with sensitivities.

Joint Support

With added glucosamine, MSM and chondroitin to help support and maintain healthy joint tissues.

Immunity Support

Our gut friendly prebiotics, along with omega 3 and 6 from fish oils, help nurture a healthy, developing immune system.

Shiny and Healthy Coat

Biotin, zinc chelate, and omega 3 work together to help your puppy develop a shiny, healthy coat.

Highly Digestible

Delicious chicken, prebiotics (FOS and MOS), and beet pulp, to help support gentle digestion, perfect for a growing puppy.

Fruit, Vegetables and Herbs

A blend of antioxidants, vitamins and minerals to support your puppy's developing immune system and digestive health.

Healthy Shiny Coat

Biotin, chelated zinc and omega 3 help skin, coat and paw pads

Great Tasting Food Makes for a Happy Pet

Healthy Digestion

Contains prebiotics and beet pulp for good digestive health

Optimising Energy

Vitamin B, essential for good energy levels

Maintaining Healthy Joints

With added glucosamine to support and maintain healthy joint tissues

Maintaining Strong Bones

Large Breed Puppy Chicken & Rice

Suitable for puppies who will weigh over 25kg

It is important you feed the same amount of food each day to your pet. Weigh out the correct amount of food on digital scales.

When feeding for the first time introduce gradually over 4-7 days.

- Puppies up to 12 weeks should be fed a minimum of 4 times a day.
- Puppies up to 16 weeks should be fed a minimum of 3 times a day.
- Puppies up to 12 months should be fed a minimum of 2-3 times a day.
- Do not be tempted to overfeed, as your pet may become overweight and less healthy. Daily amounts may need to be adjusted to meet the needs of your pet according to activity, body condition, seasonal changes and current weight.
- Beware that additional supplements, treats and chews can contain food allergens, unbalance the diet or lead to obesity.
- Please ensure that fresh drinking water is available at all times.

Current
Age

	Daily Food Intake (g) Expected Adult Weight (kg)				
	26-30kg	31-35kg	36-40kg	41-45kg	46kg+
1-2 months	200-234g	240-263g	265-290g	300-364g	350g
2-3 months	252-332g	240-360g	265-400g	300-464g	370-460g
